

WETSHOP 2018

Dates: July 8 - 13, 2018

Location: LDWF Marine Research Lab, Grand Isle, LA

Number of Participants: 20 Teachers

Registration Fee: \$50.00

**Application Deadline:
May 20, 2018**

What is WETSHOP?

A week-long workshop that allows teachers to work with educators/scientists to learn about Louisiana coastal wetlands, issues and history. The focus of the summer workshop is to create wetland stewards of teachers in order for them to educate co-workers and students in their home parishes about coastal land loss.

- Implementation of a six hour wetland stewardship project for students, teachers and/or community in your parish after completion of the summer workshop is encouraged.
- Teacher stipend available for summer workshop and wetland stewardship project during academic year.
- 55 professional contact hours will be accrued upon the completion of this wetland institute

Workshop Highlights & Experience:

*Fisheries management; research trawling & oyster ecology
Coastal botany & ornithology (visit a Brown Pelican rookery)
Visit transitional coastal ecosystems
Visit coastal restoration site / oil spill impact sites*

*Barrier islands & their role in coastal health
Water quality testing along fresh to salt water gradient
Tour one of the largest oil ports in U.S.
Invasive species (role in coastal land loss)*

You will Receive:

*Wonders of Wetlands Teacher Guidebook
Numerous classroom resources
Networking with wetland scientists
Up to 55 professional contact hours*
